

VeriFact[®] 525 (LE-525)

**MOBILE OBSERVATION
CART INTEGRATION**

The VeriFact[®] 525 is a **hands-free** analog two-way speaker microphone with Echo cancellation and full-duplex technology allowing for two-way communication with high-fidelity sound. The unit contains a built-in microphone and a 2.5" speaker for accomplishing bi-directional audio. The VeriFact[®] 525 uses terminal blocks to ease the connection directly to IP cameras and encoders that feature two-way, line level audio.

Upgraded Features:

- Handsfree analog two-way speaker microphone
- Sturdy ABS plastic housing
- Speaker gain can be adjusted using the variable potentiometer
- Microphone and speaker gain adjustable on IP camera use interface adjustment
- Echo cancellation allowing for full duplex operations
- Omni-directional microphone and 2.5" speaker
- UL listed
- Compatible with most IP cameras, DVRs and NVRs
- May be installed up to 1,000' from audio receiving devices
